

# GRAND FORMAT Collection

Traverse

From Concept To Reality

The Grand Format collection from Traverse adds new excitement to the non-wood design field in modular resilient flooring, with four new copyright patterns developed by Traverse in fifteen colors. Grand Format is made from virgin raw materials and is phthalate free for health and well being.

With options in both 18" x 36" and 24" x 24" squares, the larger sizes of rectangles and squares permit much more development of design within each tile; this is necessary due to the larger scale pattern.

The Industrial Chic Collection design has been tweaked to make it a blend between concrete and slate, taking the best of both elements to create a whole new design. The slate-like characteristics of the upper surface and the sense of partial penetration into lower layers of concrete in the base of the design shows resplendent blending of color. Charcoal, white, beige, rust, earth, blue hues; there is plenty going on ! Additionally, Traverse developed brand new surface embossing for the seven colors shown in this collection because there's nothing else like it until now.

Three colors in a smooth concrete in 24" x 24" format make up the Large Square Collection. The larger size, surface texture and Super Matte finish work in conjunction with the silky smooth concrete design to create a peaceful feeling within the space, while the color tone almost becomes one when viewed from a distance. Very simple, but very effective !

Two colors in the Tangle Foot Collection come in an 18" x 36" and take a concrete base color, cat-scratch damaged appearance with very subtle dabs of color blended over the base design. It's almost as if the color was applied lightly with cotton wool balls and the result is a truly sumptuous blending of colors in a lightly damaged concrete effect.

Three additional colors in the Tangle Foot Collection show a more mineralized natural stone design that has a unique directional vein along the length of the rectangles from south west to north east. The three colors in this design complete a range which Traverse hopes that you will view as exceptional and that your clients will enjoy!

TVS 804 - Rust

18" x 36"

TVS 801 - Earth

18" x 36"

TVS 806 - Stardust

18" x 36"

TVS 807 - Intergalactic

18" x 36"

TVS 803 - Indium

18" x 36"

TVS 802 - Ice

18" x 36"

TVS 805 - Graphite

18" x 36"

TVS 811 - Slanted Brown

18" x 36"

TVS 813 - Incline Black

18" x 36"

TVS 812 - Diagonal Gray

18" x 36"

18" x 36"

TVS 815 - Cement Light Gray

18" x 36"

TVS 811 - Slanted Brown

TVS 808 - Graphite Smooth

24" x 24"

TVS 810 - Charcoal Smooth

24" x 24"

TVS 809 - Indium Smooth

24" x 24"

TVS 812 - Diagonal Gray

## Product Details

### Running line

- Overall thickness 0.120" (3.0mm)
- Wear layer thickness 0.028" (0.70mm)
- Square edge
- Tiles 24" x 24"
- Rectangles 18" x 36"

### Additional options

- Overall Thickness 0.080" (2.0mm), 0.100" (2.5mm)
- Wear layer thickness 0.012" (0.3mm), 0.022" (0.55mm), 0.04" (1.0mm)
- Beveled wear layer is optional
- Tiles 36" x 36"

All colors can be made in thinner overall thickness and thinner wear layers than shown above for the requirements of the residential sector (multi-family, senior living communities, apartments and student housing etc). Please contact Traverse Flooring for information.
