Nominal Dimensions	12" x 12" x 0.080" (2 mm) Tiles, 40 per carton
	24" x 24" x 0.080" (2 mm) Tiles, 15 per carton
Finish	Smooth, Urethane Factory Finish
ASTM F1066 - Vinyl Composition Tile	Exceeds Requirements
ASTM F1066 - Vinyl Composition Tile ASTM E648 (NFPA 253) - Critical Radiant Flux	Exceeds Requirements Passes; Class 1, ≥ 0.45 W/cm²
	<u> </u>

ADA Standards for Accessible Design states the floor surface shall be stable, firm and slip resistant. Our test results utilize the James Machine as described in D2047 and as described in UL410 for floor covering materials (FCM) utilizing a leather foot under dry conditions. Maintenance processes and commonly utilized site applied finishes, polishes and other sealers to maintain resilient flooring products will change the walking surface and ultimately the Static Coefficient of Friction.

ASTM F970 - Static Load Resistance Passes; < 0.005" Indentation @ 250 psi

ASTM F970 - Static Load Resistance (Modified) Passes; ≤ 0.005" Indentation @ 5000 psi

ASTM F970 testing at loads above 250 psi is outside the scope of the test method. Since testing is conducted on flooring product alone, our stated results do not take into consideration chosen adhesive, any utilized underlayments and/or substrates or subfloors. These results should not be construed as an indicator of installed flooring performance.

ASTM F925 - Chemical Resistance

Excellent, Additional Chemicals Chart Available

ASTM F925 testing is utilized to ensure flooring materials will stand up to certain household standard chemistries. Additional chemical resistance testing performed using this test method is for informational and guidance purposes only. Proper maintenance will have an effect on chemical resistance, but the best defense against a negative effect is to clean the drop/spill from the flooring surface immediately.

ASTM F2240 - Hardness	Shore D; ≥ 65
ASTM D3389 - Abrasion Resistance	Excellent, ≤ 1 g loss after 1,000 cycles
ASTM F2199 - Dimensional Stability	Excellent, ≤ 0.020" per linear foot
ASTM F1514 - Heat Stability	Excellent, ΔE ≤ 8
ASTM F1515 - Light Stability	Excellent, ΔE ≤ 8
ASTM F1914 - Residual Indentation	Excellent, ≤ 8% after 24 hour recovery
Sustainability Information	Contributes to LEED v4/4.1
	FloorScore Certification
	Meets CA 01350 Requirements
	Meets CA 01350 Requirements NSF/ANSI 332 Platinum Certification
	•
	NSF/ANSI 332 Platinum Certification
Acclimation Time	NSF/ANSI 332 Platinum Certification

Traverse Quartz Tile	European Collection	Rev 2: 6.16.2023
Warranty	20 Year Commercial
